Overview

Overview

Established in 2008, Shenzhen Rong Mei Guang Science And Technology Co.,Ltd (RMG) is a professional manufacturer and exporter that is concerned with the design, development and production of Financial Equipment and its modules and spare parts. We are located in Shenzhen, China, with convenient transportation access. All of our products comply with international quality standards and are greatly appreciated in a variety of different markets throughout the world.

Our factory

Covering an area of 4500 square meters, we now have over 80 employees, boast an annual sales figure that exceeds USD 3 million and currently export more than 85% of our production worldwide.

Our quality

Our well-equipped facilities and excellent quality control throughout all stages of production enable us to guarantee total customer satisfaction. Besides, we have received ISO9001-2008 certification.

Our service

As a result of our high quality products and outstanding customer service, we have gained a global sales network reaching all over the world.

RMG target & LOGO

Quality first, provide high level service to every customer!

After years of development and having accumulated a wealth of experience and technology, RMG is about to launch its own brand of financial equipment and has registered a new logo for this purpose. This logo will be used to further enhance RMG's professional image.

Business field

We have been supplying, repairing, and manufacturing ATM and related modules and spare parts for over 18 years. We began as a factory specializing in ATM parts and have since expanded our support for financial equipment. We expanded from a single ATM focus to encompass a wide range of financial equipment, expanding our service beyond China to the global market. We offer comprehensive support for complete financial equipment, related modules, and corresponding spare parts worldwide.

The following are some of the brands and equipment we primarily serve:

- * Diebold-Nixdorf / Wincor / Diebold atm & parts
- * NCR atm & parts
- * Glory / DeLaRue / NMD/ Talaris atm parts
- * Hitachi / Omron atm & parts
- * Fujitsu atm parts
- * GRG atm parts
- * Hyosung atm & parts
- * OKI atm & parts
- * King Teller atm & parts
- * cpi / mei / CashCode / Money Controls equipment & parts
- * JCM equipment & parts
- * Product Customization service etc

Office & Workshop

Our company is covering an area of 4500 square meters, and have over 80 employees. We have mold room, Injection molding department, R&D department, assembly workshop, refurbish department, maintenance department, QC department, warehouse etc. There are more than 20K types of spare parts in stock. We standardized our management and quality systems, obtaining ISO9001-2008 certification and introducing ERP systems. Insure that supply the high quality products for customer.

Technology and R&D

We have numerous technical professionals with over 10 years of experience in the ATM industry, leading a team with an average of over 5 years of experience across various technical departments. They are familiar with the hardware technologies associated with various ATM types and can handle a wide range of ATM hardware issues. They can also develop and improve products based on customer needs. Our technical team has obtained numerous technical certifications, a testament to our team's commitment to excellence. Furthermore, our QC department rigorously controls all product technical specifications to ensure that every product shipped performs flawlessly.

Good reputation

Over the years, We gained great reputation from our customer and partner. Rely on offering our customers world wide high quality parts with competitive price. Since 2010, in order to better serve customers outside of China, we have opened online stores and website to provide better and more direct support to customers around the world. The online customer satisfaction survey shows that we receive a 99% five-star rating out of a possible five stars.

We will do our best to support all the customer from all over the world, and built up a long term Win-Win cooperation with them.

New Arrive

Model 280N (ProCash 280N)

Product Matrix

The Model 280N is the entry-level system in ATM product family. It is the ideal system for usage in extreme climates, where a robust machine type is needed, at which space is limited and the focus is on cash handling.

Featuring up to four cassettes, the Model 280N also guarantees maximum availability thanks to its integrated open software standards .

Using best-in-class technology, the Model 280 comes with high level security solutions such as an Anti-Manipulation Card Slot and security surveillance solutions.

Model 280N
(ProCash 280N)
